PROJECT DESCRIPTION

South Florida Water Management District operates and maintains nearly 1,800 miles of canals and levees, 25 major pumping stations and about 200 larger and 2,000 smaller water control structures. After the storms of '04 and '05 ravaged the South Florida canal system, many of these canals were stressed beyond their limits and rehabilitation became critical.

SCOPE OF WORK

Furnish all materials, labor, tools and equipment required to repair approximately 14 miles (74,180 LF) of the C-41 canal banks. Repair of the canal banks included installation of culverts and inlets every mile, removal of existing vegetation, backfill and compaction of the banks to 2H:1V slopes, sodding and installation of turf reinforcement mats, as well as, all other appurtenant and collateral work necessary to complete work required by the contract documents.

COMPLETION DATE

2007

PROJECT COST

\$ 1,920,000
